County  
Environmental  
Management  
Department**

## PRESCRIPTION DRUG DISPOSAL

There are several ways to dispose of expired, unwanted, or unused medications. Drug take back programs are the preferred method. Find a drop-off site near you. Also check with local pharmacies like CVS and Walgreens.

## WHY IS SAFE DISPOSING IMPORTANT?

- To prevent the accidental or intentional misuse of unwanted medications.
- To prevent negative and toxic effects on our environment.
- To protect others from contracting diseases and other adverse effects of needle sticks.

**KEEP THEM SAFE. CLEAR THEM OUT. TAKE THEM BACK.**
